## PROFILE

Front-End Software Engineer with over 4 years of experience in developing modern and scalable interfaces. Expert in React and TypeScript, with proficiency in Next.js, TailwindCSS, Zustand, Redux, and React Query. Solid experience in API integration (REST and GraphQL), CI/CD practices, and agile methodologies (SCRUM and Kanban). Focused on delivering high-performance solutions (SSR, SSG, SPA) and clean code, following principles like SOLID and DRY. Skilled in technical leadership, mentoring, and collaborating with cross-functional teams.
